

ProLiant Smart Buy Amazing Deals

HP ProLiant servers featuring the newest Six-Core and Quad-Core AMD Opteron™ processors will help your business do even more. The Six-Core AMD Opteron™ processor is designed to address your most pressing challenges and deliver the optimal mix of performance and energy efficiency.

AMD Opteron™ processors offer:

Outstanding performance—Efficient data sharing, enhanced cache structure, and an integrated memory controller increase application throughput. AMD's Direct Connect Architecture delivers fast I/O performance.

Optimal virtualization—Consolidate infrastructure to help reduce power, cooling, and space requirements. AMD Virtualization™ (AMD-V™) technology can help you consolidate underutilized systems, dynamically manage virtual machines, and maintain excellent application performance.

Enhanced power efficiency—Enhanced AMD PowerNow!™ Technology and innovative AMD CoolCore™ Technology reduce total cost of ownership, power requirements, and cooling costs by lowering energy consumption.

Superior investment protection—Replace older hardware while maintaining compatibility. Six-Core AMD Opteron™ processors can run your legacy applications with increased performance. AMD's Common Core Strategy and Same Socket Technology minimize changes to your software and infrastructure, protecting your investment and simplifying management.
